## **DETAILED ACTION**

### ***Drawings***

1. The replacement drawings filed March 7, 2005 appear to be formal and are acceptable.
2. However, the drawings filed January 2, 2004 include drawings labeled Sheet 1, 2, 4, and 5 and are all designated as Figure 4. These drawings are informal and are objected to. New replacement drawings are required.

### ***Information Disclosure Statement***

3. The information disclosure statement filed January 20, 2004 has been entered and considered. An initialed copy of the PTO-1449 by the Examiner was previously sent to Applicant.

## **EXAMINER'S AMENDMENT**

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

**NOTE:** Please note that the original claims were renumbered 1-14.

In the claims:

In claim 1, after "program" insert - - on a computer readable medium - -.

In claim 11, after "value" insert a semicolon - - ; - -.

***Allowable Subject Matter***

5. Claims 1-14 are allowed.

6. The following is an examiner's statement of reasons for allowance:

The prior art fails to render obvious the claimed computer program including, inter alia, a radar display fade algorithm which combines alpha blending and texture mapping for producing a slow fade on a radar display as claimed.

The prior art fails to render obvious the claimed simulation system including, inter alia, a radar display fade algorithm which combines alpha blending and texture mapping for producing a slow fade on a radar display operatively interconnected as claimed.

The prior art fails to render obvious the claimed method for displaying realistic raw radar data signals including, inter alia, combining alpha blending and texture mapping for producing signals for a radar display as claimed.

While alpha blending and texture mapping are well known techniques in the display art, the present invention, as claimed, including the combination of both

techniques in order to achieve a slow fade in a radar display in a radar simulation system cannot be fairly rendered obvious by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited prior art discloses various display systems and techniques.
